## Case Study

### Early Growth Financial Services Simplifies Sales Commissions with the Help of QCommission

#### Customer Profile

Early Growth Financial Services was founded in 2008 by its CEO, David Ehrenberg when he couldn't find the accounting and financial consulting services that he needed when he was still working in early stage companies.

EGFS' team of finance and tax professionals help alleviate the headaches that come with trying to run a company still its early stages.

With dedication to their craft and their commitment to providing only top-notch service to their clients and partners, they have successfully established themselves as one of the best in their field.

#### The Challenge

With sales commissions being processed twice a month for 50 sales reps and their CFO, the processing of commissions every pay period took a good 5 to 6 hours. The volume alone made it very difficult to make sure that everyone was being paid correctly.

EGFS Account Manager, Jeanine Goeken, shared her dilemma, "[It was] very hard to make sure everyone is getting paid properly, because of the volume of data for every pay period."

They decided it was time to look for a solution.

#### The Solution

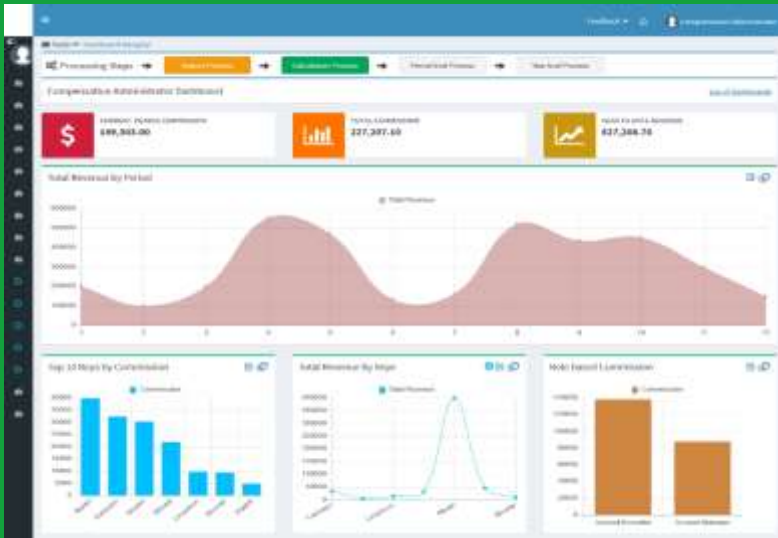

After looking through various options, they found one that could integrate with QuickBooks Desktop – QCommission! It appeared that they have found the software that they needed at a price level that made sense.

After a need's analysis and demo, the EGFS team decided that QCommission was indeed what they needed. Their commission processing is now a whole lot easier to handle.
